

THE FIRST COMPREHENSIVE PUBLIC SAFETY PLATFORM

# AI-Based Tools for More Efficient, Effective, and Equitable Public Safety Outcomes

**SafetySmart™**  
PLATFORM

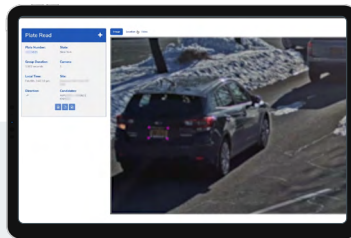

SoundThinking's SafetySmart Platform brings together specialized public safety solutions to help law enforcement, civic leadership, and security professionals better protect the communities and organizations they serve.

 **ShotSpotter®**

### *Gunshot Detection and Location*

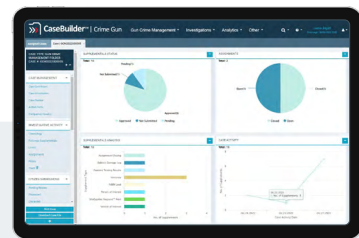

ShotSpotter is a proven acoustic gunshot detection system that alerts law enforcement to virtually all gunfire within a city's ShotSpotter coverage area within 60 seconds, enabling police to provide a consistent, rapid, and precise response.

 **PlateRanger™**  
Powered by REKOR®

### *Vehicle and License Plate Recognition*

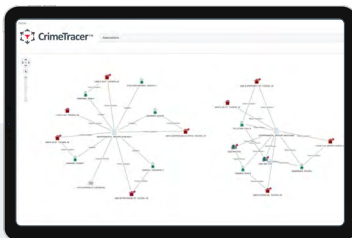

Increase investigative capacity by locating actionable leads from license plate recognition, vehicle make, model and more. Live video feeds capture crucial moments around criminal events and robust integrations provide real time alerts from stolen vehicle lists, NCIC hits, BOLOs, AMBER and Silver alerts and more.

 **CaseBuilder™**

### *Investigative Case Management*

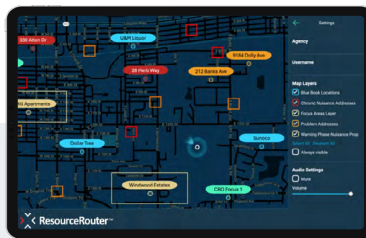

CaseBuilder is a smarter investigation management platform that enables investigative teams to efficiently organize and store case information, track and prioritize assignments, optimize resources, submit materials to prosecution, and more.

 **CrimeTracer™**

### *Investigative Leads Generation*

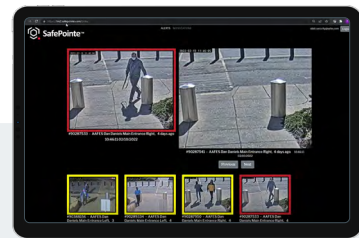

CrimeTracer is the #1 law enforcement search engine that enables investigators to search through more than 1.3B structured and unstructured data across jurisdictions to obtain immediate tactical leads, leverage advanced link analysis to make intelligent connections, link NIBIN leads to reports, suspects, and other entities, and more.

 **ResourceRouter™**

### *Patrol Management*

ResourceRouter is a comprehensive patrol management tool that automates the daily planning of directed patrols. Using a data-driven approach, ResourceRouter allows line-level supervisors and command staff to gain insight into how patrol officers spend time on shifts, assess officer participation, and more.

 **SafePoint™**

### *Weapons Detection*

SafePoint is an AI-based discreet weapons detection system designed for high-throughput facilities. Its patented system integrates hardware and software to quickly detect concealed weapons, especially for high-traffic entrances, without compromising the visitor experience.

## Security Solutions

SoundThinking's stealth weapons detection system, SafePointe, enables guests and employees to quickly pass by disguised sensors that require no action, disruption, or security personnel at ingress points. In addition, SoundThinking security solutions such as ShotSpotter® Security for Highways, ShotSpotter® Security for Campus, and ShotSpotter® Security for Corporate provide outdoor gunshot detection on highways and campuses to protect commuters, students, staff and visitors from active shooters and neighborhood gun violence.

## SoundThinking Labs

The SoundThinking Lab develops innovative uses of gunshot detection technology to help protect wildlife and the environment. ShotSpotter gunshot detection is deployed in Kruger Park, South Africa, home to the largest remaining population of protected rhinos, and has helped reduce poaching.
